

What else do we do...

Super "U" tooling

The RTL Super "U" range has been specially developed for high speed machining of Dibonds, MDF, timbers, plywood, aluminium and other plastics.

CNC tooling

Full range of CNC router tooling, including solid carbide, straight and spiral design routers, TCT straight flutes, diamond PCD tooling, TCT "V" point and lip & spur drills.

Standard tooling

Comprehensive high quality range of tooling suitable for CNC machines, overhead routers & hand power tools. From leading manufacturers at highly competitive prices.

Collets & toolholders

High precision dead-size collets and toolholders for your cnc machines and overhead routers. RTL collets and toolholders are fully hardened, precision ground and fine balanced.

Accessories

Full range of accessories, from tool care, maintenance, jigs & fixtures, bearings, replaceable tip blades, router table accessories, pocket hole jigs, clamps, to screwdriver bits.

RTL Super "A" router cutter

Super fast Acrylic cutter producing ultra smooth finishes. Specially developed for Acrylic, Polycarbonate, PETG and other plastics.

Solid carbide
Sub-micron grade.
High wear resistant.

Prices from
£13.73

Cutting geometries

Optimum geometries with ultra sharp edges produces a smooth, clean - fast cut.

Polished flute

For fast chip evacuation. Minimises welding and clogging.

High strength tip

For rapid plunging and drilling.

Range

1.5mm - 10mm diameters.
up cut and down cut options.

Extensively used in the POS, sign making and display industries.

RTL Router Tooling Ltd - 01455 289 558

RTL Super "A" router cutter

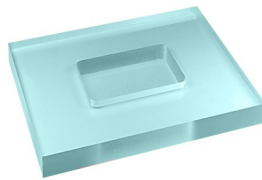

- Specially developed for Acrylic's and other plastics.
- Super fast machining producing ultra smooth finishes.
- Manufactured from extremely high wear resistant sub-micron carbide, resulting in a long tool life.
- Used by leading POS, display and sign makers.
- Extensive range of up-cut and down-cut options.

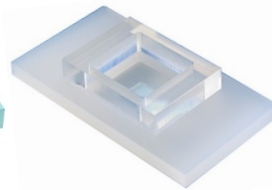

Maximize your production with the super "A"s

Used on all types of CNC and overhead router machines.

High quality - long life - premium results

Superior edge finishes

High speed cutting

RTL are working with major POS & display companies to drive down costs whilst still achieving the highest quality.

Use our extensive knowledge and large range of products to increase your production.
